Mwoolfdev.netlify.app

### TECHNICAL SKILLS

**Languages:** HTML, CSS, JavaScript

**Databases:** SQL, PostgreSQL, Sequelize,

**Software/Tools:** React.js, Sass, Git, GitHub, Bootstrap, Express, NodeJS, JIRA

### PROJECTS

#### **(Launch Academy) PodcastR:**

*podcastr-app.herokuapp.com, [github.com/spencerblawrence/podcast-review-app](https://github.com/spencerblawrence/podcast-review-app)*

- PodcastR helps users discover new podcasts and review their favorite podcasts
- Built collaboratively at Launch Academy with a team of four
- Integrated combined React/Rails front end, Ruby on Rails backend, and PostgreSQL database
- Styled with Foundation and custom CSS

#### **(DigitalCrafts) Informed Gamer:**

*informed-gamer.netlify.app, [github.com/mwoolf87/informed-gamer](https://github.com/mwoolf87/informed-gamer)*

- Informed Gamer helps users search for games by title and add them to favorites
- Uses a React Front end
- Styled with Bootstrap and custom CSS

#### **(DigitalCrafts) Media-Watchlist:**

*media-watch-list.herokuapp.com, [github.com/mwoolf87/media-watchlist](https://github.com/mwoolf87/media-watchlist)*

- Media-Watchlist helps users search for movies, add them to favorites and get more detailed information about their favorite films
- Built collaboratively at Digital Crafts with a team of three developers
- Integrated React Front end, NodeJS and Express backend with a PostgreSQL database
- Styled with Bootstrap and custom CSS
